The Future Farmers of America is a national organization for students who are studying vocational agribusiness in our public secondary schools. It is an educational, nonprofit farm organization of voluntary membership, designed to develop agricultural leadership, character, thrift, scholarship, cooperation, citizenship, and patriotism.

FFA members, among other things, learn through active participation to solve their own problems, to finance themselves, to use improved farming methods, to market farm products, to conduct and take part in public meetings and to assume civic responsibilities.

The Successful Farmer of Tomorrow is the Future Farmer of Today!
